

RANGE Ø 0.25 ▶ 5.00 mm

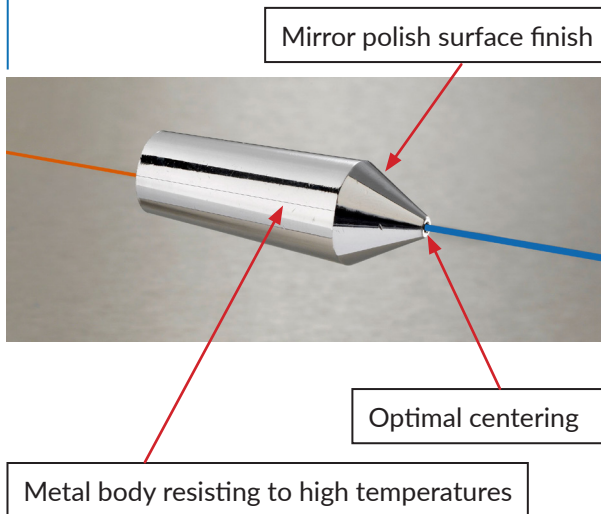

- EXTREME LIFETIME
- PERFECT CONCENTRICITY
- EXCELLENT CONDUCTOR CENTERING
- ANY MATERIAL
- POLYCRYSTALLINE DIAMOND

The **diamond tipped Balloffet wire guides** guarantee a **perfect centering** of the conductor, an **unbeatable durability** and a **precision** avoiding any overconsumption of material.

Especially recommended for **very high speed** extrusion.

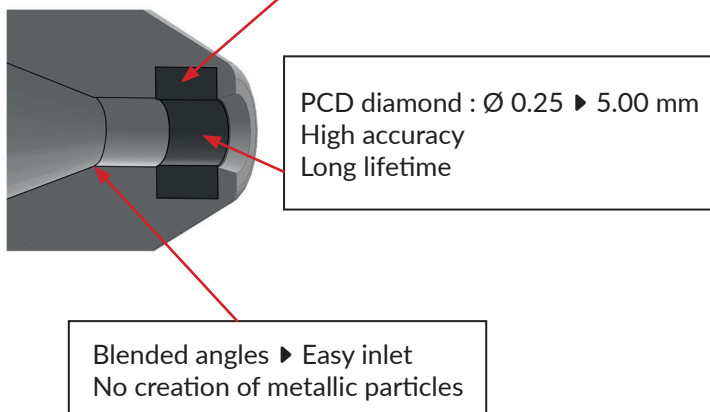

The diamond tipped guide

The diamond insert

▶ Exclusive BALLOFFET technology

- Sintered insert** ▶ More resistant than a brazed or sticked insert
- Diamond close to the exit** ▶ Excellent concentricity

BALLOFFET

- Significantly longer life than conventional guides
- Sintered diamond insert ▶ No risk of pull-out
- Designer-Manufacturer from A to Z
- Standard casing or custom-made
- No modification of your extrusion heads
- Raw material savings
- Vibrations reduction
- Tight tolerances
- Quick return on investment
- ETC 12 machine : Tools cleaning
